SUPPLEMENTAL REPORT: SANDY HOOK SCHOOL PA SYSTEM

ACTION TAKEN:

On January 2nd, 2013, at approximately 1536 hours, I spoke with Joe Mavarro by phone. Mavarro works for Auto Home Communications, which outfits Sandy Hook School's telephone, intercom and PA system. Subsequently, Mavarro agreed to meet with me at the Sandy Hook School to physically show me how to operate the PA "all call" system and to check which phones in the school have the capability of all call.

On January 3rd, 2013, at approximately 1400 hours, I met with Mavarro at Sandy Hook School with the assistance of Newtown Officer Jeff Silver. As the school is currently being cleaned with most items removed, phones included, we utilized the Principal's office that still had both phones on the desk. To access the PA system for a school wide announcement you dial (#0). You can also access the PA system by pressing (#1), which is an all call throughout the entire school except for quiet rooms, such as conference rooms.

Mavarro then performed a "level 6" software check which displayed which rooms throughout the school have PA system capabilities. The check revealed the following rooms with PA system capabilities: Room #009 (Conference Room), Room # 029 (Feda), Room #032 (Amanzio), Room #057 (Cox), Room #060 (Storage Facility), within the main office all three (3) Secretaries and the Principal's office. At this time, I tested the all call capability from the phone in room #009, which is wall mounted, and found it to be working properly.

Mavarro stated that during Hurricane Sandy the schools phone system was knocked out. In the meantime, he temporarily placed a Panasonic phone system within the school. However, this did not affect the PA system which has been in place for eighteen years.

Mavarro stated that there is no time stamp log on the intercom counsel phones.

He further stated that every classroom throughout the school has a phone with the ability to make intercom calls but only to one individual room. Meaning, the entire school cannot hear an announcement from the majority of classroom phones.

Based on statements obtained from other staff members inside the school during the time of the shooting it is believed that the PA system was activated from room #009. I will be conducting follow up interviews in the near future.
