Narrative

School Clean Up

On 12/28/2012 at approximately 0800 hours, I was contacted by dispatch and informed that the CSP were at the Sandy Hook School and that they needed the gate opened. I took the key from the Sgt. office and went there. I was met by Det. Ray Insalaco and members of the moving company which had been there during the week. Det. Insalaco indicated that the CSP were finished with the school and wanted to turn the school over to the Newtown Police. We walked through the school, which had not yet been cleaned. I spoke with Gino and Dr. Roberts from the Board of Education. We discussed the effected area and decided that all items in the hallway were to be destroyed. Clean Harbors was the vendor that the FBI had assigned for the clean up of the scene. I contacted Thomas Wilson of Clean Harbors and scheduled them to begin the clean up of the scene on 12/31/2012. I notified the Chief and Captain of this as well. At 1300 hours, Det. Insalaco gave me the keys to the school. By 1500 hours, everyone was out of the school and I checked the interior. I found several unsecured doors and a leak in the roof. I secured the doorways and notified Gino of the leak. I then secured the exterior and gate, and brought the keys to Chief Kehoe.

On 12/31/2012 I met Wilson of Clean Harbors at the school. All members of his team were instructed not to bring phones, camera, or other electronic devices into the school. They all stated that they understood and complied. The workers included Jake Lori, Bill Wass, Matt Jones, William Wendal, Tom Wilson, and James Pikul. The truck drivers were Christopher Drugoins and Kevin Tingley. I monitored the work, and they left the school at 1530 hours.

On 1/2/2013 at 0730 hours, I let William Wencil, Matt Jones, Chris Drugoins, Tom Wilson, Todd Vasiliou, Jake Lori, and Bill Wass into the school for clean up activities. These same individuals returned on 1/3/13 and 1/4/13 and worked until approximately 1500 hours each day.

On 1/3/2013 at approximately 1200 hours, Newtown Officers McGowan and Ketchum escorted a roll off container of combustibile materials removed from the school to Wheelabrator of Bridgeport. They witnessed the destruction of the material at 1305-1315 hours on 1/3/2013.

On 1/4/2013 at approximately 1130 hours, Newtown Officers McGowan and Monckton escorted a roll off container of metal desks, chairs, and other metal removed from the school to SIMS metal management at 234 Universal Drive North Haven CT. Ofc. McGowan witnessed the destruction of these items.

On 1/4/2013 one box truck was loaded with 63 boxes of biological waste removed from the school, computer equipment, and the remaining items removed from the school. Clean Harbors indicated that these items would be secured at their facility and then shipped for disposal in Arizona and Oklahoma.

Gino from the Board of Education brought a carpenter into the school in the afternoon of 1/4/2013 who moved the temporary wall. The two temporary walls now compartmentalize the front hallway of the school. The front door and office is now accessible from the remainder of the school. This was to allow access for the Board of Education along with fire personnel to the school and fire control panel. The carpenter was also going to double board the windows, and reinforce the temporary walls.

On 1/4/2013 the public works department removed two trees which were leaning over the fence at the property, installed barriers in the driveway to the school, removed snow which had been plowed against the fence, and moved a large shipping container out of the secured area.
