TRANSCRIPTION REPORT: CONNECTICUT STATE POLICE RADIO TRANSMISSIONS ON 12-14-12

ACTION TAKEN: In this investigation, I was assigned to transcribe the CSP radio transmissions that were made during the agency's response to the Sandy Hook School Shooting on 12-14-12.

The telephone calls and Police radio transmissions were obtained from the centralized dispatch center for Troops A, B, and L for the date of 12-14-12, from approximately 0930 hours to approximately 1030 hours and entered into evidence as Exhibit # 349: CSP 911 calls and police radio transmissions. The transcription consists of the radio transmissions between the Troop and the personnel responding to the scene and conversations between the Troop and Newtown PD Dispatcher Jennifer Barocsi. It also includes the transcription of telephone calls made to the Troop from personnel present at the scene who were unable to relay pertinent information over the air because their portable radios were not transmitting properly. The 911 telephone calls made to the Troop regarding the incident that were of an investigative importance were transcribed in separate reports.

During the time period of the radio transmissions, Dispatcher Betsy Brennan was primarily assigned to the Troop A dispatch, Dispatcher Mark Nadeau was primarily assigned to the Troop L dispatch, and Dispatcher Karen LaPrade was primarily assigned to Troop B dispatch. Sgt Michael Roach, TFC Timothy Loomis, and TFC Richard Binkowski were also working in the dispatch center. The transmissions and telephone calls are made by state police personnel, Southbury police officer (Tierney) , State's Attorney Inspector Don Brown, and an Oxford Constable (Ramirez).

The entire transcription report was completed as a word document and is attached to this report. Refer to document # 00156923. In the report, the times of dispatch vary due to the transmissions coming over the separate dispatch channels of both Troop A and Troop L. Troop A and Troop L

were eventually linked together on a patch so that the Troopers from each troop can communicate with each other. The Troop L dispatch transcriptions were written in bold type to differentiate the transmissions from Troop A. The numbers in parentheses that are written in bold type and appear directly after the dispatch time are the "file" numbers in which the transmissions were located in Exhibit 349.
