Action Taken:

On Sunday, December 16, 2012, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the vehicle processing of a grey 2005 Toyota Sienna bearing Connecticut registration 600TVG, VIN#5TDBA23C25S047638. The vehicle was processed at its original location in the Sandy Hook Elementary School parking lot. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for the exact location of the vehicle.

Processing consisted of investigators documenting the exterior of the vehicle with video, digital photography, completing a motor vehicle survey, performing bullet trajectory and examining the interior and exterior of the vehicle for bullet projectiles. The main objective of the vehicle processing was to perform bullet trajectory and retrieve any and all bullet like projectiles from the vehicle. Processing began at approximately 1700 hours and ended at approximately 1720 hours.

During the processing of the vehicle, a suspected bullet strike (BS) was located and identified as BS1. BS1 was located on the exterior front bumper. Refer to the supplemental bullet strike/trajectory report.

Investigators then conducted a systematic search of the exterior of the vehicle, specifically to retrieve the suspected bullet like projectiles. Investigators retrieved bullet like projectile fragments from the pavement area located underneath the front bumper/radiator of the vehicle (Exhibit #509).

Evidence item five hundred and nine (509) was turned over to Detective Keith of WDMC on December 16, 2012 at approximately 1754 hours.
